Page 20, Line 2, INSERT New Paragraph:

"During the proceeding held pursuant to Arizona Revised Statutes § 40-252 on January 24, 2006, the Commission took testimony regarding the amendment proposed Chairman Jeff Hatch-Miller. Fuel and purchased power costs incurred by APS during the latter part of 2005 have escalated faster than the company than anticipated. As a result, APS has accrued a significant undercollection for its fuel and purchase power costs. It is generally accepted that these costs will continue to mount in 2006. Under the current circumstances and for at least the near future, the Commission agrees with Staff that APS' undercollection should be addressed as soon as possible instead of later. The most expeditious way to begin recovery is to change the timing of the reset for the adjustor. Therefore, we will allow APS to implement the annual Adjustor Rate on February 1 of each year."
